

7 Reasons why you should be using NEC's InHotel

1

Transform your customer service levels

- > Faster check-ins, check outs
- > Quicker amends to room bookings
- > Enables sharper responses to guest requests

Transform your productivity levels

- > Numerous everyday time saving features
- > Works with your communications for maximum integration (e.g. wake up calls)
- > DECT mobility reduces your staff's 'corridor miles'

2

3

Lower cost of ownership

- > Single initial cost - no recurring monthly subscription costs
- > No middleware required
- > Multiple concurrent users - no extra charge per user
- > On-board application - no extra PC server hardware or maintenance (leverage your existing hardware and even saves energy!)

Easy to use

- > Easy interface – minimal / no training required
- > More flexibility with your team
- > Deal with staff turnover more easily

4

5

Always on 24/7 access

- > Browser-based
- > Can be accessed remotely from anywhere
- > B.Y.O.D.

Easy, flexible & faster billing

- > Includes room rates, variable VAT, call costs, mini bar, spa, restaurant, even breakages
- > Any fee can easily be added
- > PDF invoice generated

6

7

Complete hotel room management

- > Real-time status dashboard at your fingertips
- > Easy to set wake-up calls & unanswered follow-ups
- > Automated call billing & voicemail as soon as a guest checks in
